Feedback

Correct. Simple text is best used to get focus on a single number.

especially when it is the most important piece of information.

Question 2

1 / 1 point

What is the primary function of a heatmap?

- ✓ ☒ To use color saturation to guide the brain to points of interest.
- ☐ To show the precise values in a large dataset.
- ☐ To interact with our verbal system so the audience reads the data.
- ☐ To display a trend over a continuous time series.
